CEPA Material Compliance Declaration

Product: Eco Jar / Paper Canister

Prepared By: Eco Vision Packaging, a Division of Organic Essence Inc.

Prepared For: Rocky Mountain Soap

Date: 7 August 2026

Product Description

The Eco Jar is a paper packaging container intended for cosmetic and personal care applications. The package is constructed from paper-based materials and water-based adhesive systems and includes exterior CMYK printing.

Package Components

Component	Material
Structural body	White kraft paper
Interior barrier liner	PFAS-free glassine paper
Printed outer wrap	White paper
Printing system	CMYK toner/ink
Lamination adhesive	Starch-based adhesive
Assembly adhesive	Polyvinyl acetate (PVA) adhesive

Material Compliance Statement

Based upon supplier Certificates of Analysis, material specifications, and declarations received from component manufacturers, the materials used in the manufacture of this package consist of:

- White kraft paper
- PFAS-free glassine paper
- White paper
- CMYK toner and/or printing ink applied to the package exterior
- Starch-based adhesive
- White glue adhesive

Supplier documentation indicates that the above components conform to their respective manufacturing specifications and are suitable for their intended packaging application.

Canadian Environmental Protection Act (CEPA) Declaration

To the best of our knowledge and based on documentation provided by our suppliers, the materials used in the construction of the Eco Jar packaging:

- Are manufactured from paper-based substrates and water-based adhesive systems.
- Are not intentionally formulated with perfluoroalkyl or polyfluoroalkyl substances (PFAS/PFOA).
- Utilize PFAS-free glassine paper as the internal barrier material.
- Utilize CMYK toner and/or printing ink solely on the exterior package surface for graphics and product identification.
- Are supported by Certificates of Analysis and/or material declarations provided by the respective suppliers.
- Do not contain any intentionally added substances identified by suppliers as restricted for the intended packaging application.

This declaration is made on the basis of information supplied by raw material manufacturers and component suppliers and is believed to be accurate at the date of issue.

PFAS Statement

The Eco Jar package is manufactured using:

- White kraft paper
- PFAS-free glassine paper
- White paper
- CMYK toner/ink
- Starch adhesive
- PVA adhesive

Based on supplier declarations and Certificates of Analysis, no PFAS, PFOA, or other fluorinated treatment chemicals are intentionally added to any of the above package components.

Supporting Documentation

The following documents are maintained in support of this declaration:

1. Certificate of Analysis – White Kraft Paper
 2. Certificate of Analysis – PFAS-Free Glassine Paper
 3. Certificate of Analysis – White Paper
 4. Certificate of Analysis – CMYK Toner/Ink
 5. Certificate of Analysis – Starch Adhesive
 6. Certificate of Analysis – White Glue Adhesive
-

Authorized Declaration

I hereby declare that the information contained in this document is based upon supplier-issued Certificates of Analysis, material specifications, and technical declarations available at the time of issue.
